PERSONAL INFO

I Enthusiastic and detail-focused software developer, skilled in Java full-stack development. Experienced in creating user-friendly websites using HTML, CSS, and JavaScript. Excited to bring creative solutions to a collaborative development team.

EDUCATION

BTECH Mechanical Engineering   **2019-2022**
Kits Engineering College kakinada

DIPLOMA   **2014-2017**
Sankethika Polytechnic Vizag

SSC   **2014**
ZPH School

INTERNSHIP

Web Developer
Lets Grow More   **Oct-2023**

During my month-long virtual internship, I honed my skills in HTML, CSS, and JavaScript, focusing on constructing dynamic and responsive webpages. Actively engaging in multiple projects, I implemented contemporary design concepts and rigorously tested for compatibility across various browsers. Collaborating with the team provided valuable insights into version control and agile development techniques

PROJECTS

Weather Forecast

My expertise lies in creating user-friendly interfaces that seamlessly display current weather conditions, including temperature, humidity, and airflow, ensuring users have access to accurate and up-to-date information at their fingertips. I am dedicated to delivering responsive and engaging web applications that enhance the user's experience and make staying informed about the weather a breeze.

ShoeCart

The Shoe Shop Management System Project is a software application that helps to manage a shoe store. It has various features that make it easy for store owners to manage their inventory, sales, and customer data. Using HTML,CSS,JAVASCRIPT
